AMENDMENT

Sir:

In response to the Office Action mailed November 14, 2002, please amend the above-identified application as follows:

In the Claims:

Please rewrite claims 27 and 28 as follows:

27. (Amended) A piezoelectric/electrostrictive element comprising:

a substantially trapezoidal laminate having narrower and wider surfaces lying substantially in parallel to one another and first and second surfaces opposed to one another between the narrower and wider surfaces, the first and second surfaces being inclined at given angles with respect to one of the narrower and wider surfaces, said laminate comprising a plurality of piezoelectric/electrostrictive layers and a plurality of internal electrodes each of which is disposed between an adjacent two of the piezoelectric/electrostrictive layers, the internal electrodes being divided into first and second groups, each of the first group internal electrodes lying over one of the second group internal electrodes and being separated by one
